INTRODUCTION

The annual Criminal Justice Profile series summarizes and combines data pertaining to California's criminal justice system. Separate publications are available for each county and the state. Much of the data presented in the Statewide Profile supplements the Bureau of Criminal Statistics' (BCS) annual Crime and Delinquency publication, which is available upon request. Data not provided in these publications may be available from BCS by special request.

Each Profile consists of two sections. The first section displays annual criminal justice data in tabular form for 1976 through 1985. The second section contains reference tables displaying selected data for 1985.

CRIMINAL JUSTICE DATA

Trend data in the Profile are reported to BCS by state and local agencies and have been summarized for each year. Individual county or statewide totals for selected criminal justice activities are provided in tabular form in this section. Tables are provided on crimes, arrests, processes, personnel, expenditures, and correctional actions.

Where used, population data are shown in hundreds and can be converted to original numbers by adding two zeros. For example, the state population for 1985 is shown as 263,651, which converts to a population total of 26,365,100.

REFERENCE TABLES

The individual reference tables in this section cover data for 1985 on crimes reported, adult and juvenile arrests, prosecution, and adult and juvenile probation.

Each county publication contains jurisdictional data. The statewide publication relates to California counties.

CRIMINAL JUSTICE DATA FOOTNOTES

1 Homicide arrests from 1981 to 1985 are inflated to some degree. Assault with intent to commit murder is included in some cases because of a 1981 law that repealed Penal Code Section 217.

2 Due to a 1982 law change, arrests for driving under the influence of a drug have been removed from the drug law violations category and are included in the "driving under the influence" category.

3 Caseload count taken December 31 of each year.

4 Adult Probation: Removals exclude the "all other" category, which includes deceased, transferred to another county, sentence vacated, and appeal approved. Lower court probation removals for 1976 include estimated data for Alameda County based on the 1977 proportions reported. Terminations and violations are shown both numerically and as a percent of total removals.

Juvenile Probation: Prior to 1982, initial referrals with prior status of 654 W&I were counted as new referrals. In 1982 and subsequent years, these will be counted as subsequent petitions filed. Subsequent petitions filed include all cases dismissed, transferred, or remanded to adult court.

5 Totals have been rounded and are shown in thousands. Expenditures include salaries and employee benefits, services, and supplies. Building construction is not included. Expenditure and personnel data are not comparable with each other.

6 Includes costs for Juvenile Justice Commission, Delinquency Prevention Commission, jurors, interpreters, examination of the insane, juvenile court referees, jury commissioners, and other court-related expenses.

7 In 1985, the "Number of Full-Time Law Enforcement Employees" reporting form was revised. This may result in a decrease in the reported number of full-time law enforcement personnel for 1985 in comparison with previous years. One day count of personnel taken June 30 with the exception of police departments, sheriffs' departments, California Highway Patrol, and University of California Police (includes state colleges) which were taken October 31. Probation personnel counts were taken January 1, 1986. The dates varied in previous years. Personnel counts for Lawrence Radiation Laboratory were not available prior to 1980. Personnel and expenditure data are not comparable with each other.

8 Counts for county and city jails and camps and juvenile nonsecure and secure facilities were taken the fourth Thursday in September of each year. Counts for active adult and juvenile probation caseloads and juvenile halls were taken December 31 of each year.

9 Resident population is by county of wardship for 1976 and 1977. Beginning in 1978, data are shown as county probation detention, nonsecure and secure facility counts.

Notes: To maintain consistency with prior years' data, the arson crimes reported are excluded from the FBI Crime Index trend data (page 5), however 1985 arson crimes reported are included in the reference table (page 21).

Rates on California Crime Index offenses, clearances, and arrests are not computed where population is less than 100,000.

Rates may not balance because of rounding.

Percents may not total 100.0 because of rounding.

Percent distributions are not calculated when the total number upon which those percents are based is less than 50. This does not apply to clearance rates on the California Crime Index offenses.

KNOWN DATA LIMITATIONS, 1985

CRIMES

- Agoura Hills data are not included.
- Long Beach Community College data are not included.

ARRESTS

ARREST AND CITATION REGISTER

- Homicide arrests may be inflated to some degree. Assault with intent to commit murder is included in some cases because of a 1981 law change that repealed Penal Code Section 217.
- Race/ethnic data must be considered in light of the subjectivity of the labeling process and recent classification changes, such as those of the U.S. Bureau of the Census (1980).
- Felony arrest counts may include some misdemeanor warrants for felony offenses.
- Agency reporting problems account for almost all of the increase recorded in 1983 other drug law violations.
- El Monte Police Department data are not available from April through December.

DISPOSITIONS OF ADULT FELONY ARRESTS

OFFENDER-BASED TRANSACTION STATISTICS SYSTEM

- These data represent an estimated 75 percent of the actual number of adult felony arrest dispositions which occurred statewide in 1985.
- Caution should be used when comparing adult felony arrest disposition data with reported arrest data. Disposition data are based on the year of final disposition, regardless of when the felony arrest occurred. Arrest data are based upon the year in which the arrest took place.
- The most serious offense an arrestee is charged with is selected as the arrest offense. Severity of possible punishment determines seriousness. The most serious of the court dispositions is selected and its associated offense is the court offense.
- Bureau of Criminal Statistics (BCS) disposition data on state institutional commitments are counted differently from those of other state agencies. For example, the Department of Corrections counts the number of defendants received, even though a defendant may have received a commitment from two or more jurisdictions. In the same situation, BCS counts each commitment as a separate disposition.
- The theft offense category is inflated by an estimated 10 percent. This inflation was the result of a court injunction affecting entry procedures. As a result, from January 1 through September 30, 1985, Penal Code Section 484(a) offenses were entered to the system as felonies rather than as misdemeanors.
- The adult felony arrest disposition data base includes some persons whose age at disposition was under 18. These minors were tried in adult court by provision of the Welfare and Institutions Code.
- Comparisons between counties should be made with caution since the level of reporting may vary between jurisdictions and from year to year.

ADULT PROBATION

- The data include adults placed on supervised probation only.
- Persons are counted once for each jurisdiction. Thus, data include original grants of probation and do not include subsequent grants of probation to persons already under probation supervision ordered by the same level court in the same county. Also, the probationers under jurisdiction of both superior and lower courts and any who are jurisdictional cases of more than one county are counted more than one time in statewide totals.
- The sources of data are county probation departments' monthly reports of summary data.

JUVENILE PROBATION

- In 1985, the new juvenile justice reporting system included 55 counties. Los Angeles, San Diego, and Santa Clara counties are still reporting in the old format.
- In cases where a juvenile has multiple petitions filed for more than one offense, only the petition with the most serious offense is recorded. This accounts for the differences between BCS counts and the statistics generated by the Administrative Office of the Courts, which counts the number of petitions processed.
